

eROUTING RELEASE NOTES – MARCH 2026

eRouting

- (ERCM-128) In eRouting, the Proposal approval screen has been updated so that the action buttons now provide clearer labels. The Return button now displays **“Return Proposal,”** and the Approve button now displays **“Approve Proposal.”** This update helps avoid confusion caused by the comment box, making it clearer that these actions apply to the proposal itself—not the comments entered.

P33594

TEST ERCM356 AW

- (ERSD-2915) In eRouting, on the **Proposal Routing Sheet** → **Special Review Checklist** → **Office of the General Counsel Export Control** section, if any question is answered **“Yes,”** an email will automatically be sent to the Research Security Program Office <rspo@enclave.gatech.edu> at the time the proposal is submitted for Reviews and Approvals.

Office of the General Counsel Export Control

Yes No Will proposal be submitted to a foreign sponsor (Prime or Sponsoring Organization)?
 PI: You will receive an Office of the General Counsel Export Control notification with a link via email to complete the required Export Certification.

Yes No Does research involve export of items or technology (e.g. shipment to another country, OR international collaborator, OR international sub-agreement, OR activity will be performed in whole or in part outside the U.S.A.)?
 PI: No action is required at this time. This activity will be reviewed by Office of the General Counsel Export Control prior to acceptance of an Award.

Yes No Do any of the Proposal documents include technical data subject to the Department of State, [International Traffic in Arms Regulations \(ITAR\)](#)?
 PI: Documents must be marked with appropriate access and dissemination security markings before uploading to eRouting.

Yes No Is the agreement anticipated to contain any of the following: Restrictions on Dissemination (Publication Restriction or Approval) or Restrictions on Access (Foreign National Restriction or Approval or Notification), or other Security controls?
 PI: No action is required at this time. This activity will be reviewed by Office of the General Counsel Export Control prior to acceptance of an Award.

Yes No Is the research anticipated to access, use, create or generate technical data or hardware subject to the Department of State, [International Traffic in Arms Regulations \(ITAR\)](#), or Controlled Unclassified Information (CUI-EXPT or CUI-EXPIR), or data marked with Distribution Statements B-F, or X, or Classified activities or data?
 PI: No action is required at this time. This activity will be reviewed by Office of the General Counsel Export Control prior to acceptance of an Award.
