

eRouting Approval Workflow Template

This form is used when your department needs to update the eRouting Approval Workflow (ex. new Chair approvers). See page 3 of this document for an example.

If the approval names are different for the departments under the college, please identify those departments on **separate forms** for clarity.

If the approvers are the same for multiple department ID's, you can put all those on a single form.

Once completed, please submit via email to erouting-support@gtri.gatech.edu which will create a help desk ticket that will allow for you to respond to any questions about your request, check on the status, and receive confirmation once it has been completed.

Department Org ID	
Department Name Short	
Department Name Long	
General Approvals
